FUNCTIONAL						

**Technical** = requirements **Functional** = enhancements

Developer: DISA, Columbia Pike, VA  
Government POC: Pete Giorgio  
SME: Lt Aron Buss (JSSC)  
JITC Team: Holly Lund and Luanne Overstreet

#### Assessment Objectives:

This was an assessment of the EVAC functionality on the new operating environment (DII COE 3.0) only. There were no test procedures and the assessment application was not measured against requirements. JITC was present at all times and documented comments and prepared pre-assessment and post-assessment documentation. The user and JITC avoided all comment that may have caused redirection to the scope of the product. JITC was responsible to the Joint Staff and the PMO to bring all issues, questions, comments, and concerns to the appropriate GCCS representative.

#### User Expectations:

Observation of a system that functioned as well as the EVAC application currently resident in GCCS v2.2, to include, a quick response to possible real world applications.

#### Assessment Results:

The overall assessment was excellent. The functionality was similar to current application, functions were IAW the requirements, the requirements were satisfactory, and the SME felt that the application should be integrated into GCCS v3.0. The following are specific comments/concerns of the SME:

1. The SME was satisfied with the database information, data presentation, and speed with which the application operated at.

#### Recommendation:

The SME felt that the application should be integrated into GCCS v3.0.
